Tools To Assess & Address Medication Adherence In Patients With Serious Mental Illness

WEDNESDAY DECEMBER 13, 2017
12PM ET | 9AM PT

Poor medication adherence presents a significant barrier to successful treatment and recovery in patients with serious mental illness and can negatively impact health outcomes and health care costs. While various clinical tools and approaches exist for the assessment and enhancement of medication adherence, many have yet to be widely adopted into psychiatric practice. Please join Hayden Bosworth, PhD, and Michael Measom, MD, as they discuss the importance of medication adherence for patients with serious mental illness, review methods which clinicians can utilize to assess medication adherence in their patients, and consider some tools and approaches clinicians can implement to promote and optimize medication adherence.

Speakers are paid consultants of Otsuka Pharmaceutical Development & Commercialization, Inc. and will be compensated for participation in this event.

Featuring:

Hayden Bosworth, PhD

Hayden Bosworth, PhD, is a Health Services Researcher; Professor of Population Health Sciences, Medicine, Psychiatry, & Nursing; and Associate Chair of Education for the Department of Population Health Sciences at Duke University Medical Center. He also serves as the Associate Director of the Center for Health Service Research in Primary Care Center of Innovation (COIN) at the Durham VAMC.

Dr. Bosworth received his PhD in human development and family studies from The Pennsylvania State University. He completed a postdoctoral fellowship at the Duke University Medical Center in Durham, North Carolina.

Michael Measom, MD

Michael Measom, MD, is the Medical Director of the Assertive Community Treatment (ACT) Team at Volunteers of America, and Medical Director of New Roads Behavioral Health. He is board certified in general psychiatry, addiction psychiatry, and addiction medicine.

Dr. Measom received his MD from the University of Utah. He completed his residency in psychiatry at the University of Wisconsin-Madison and a Fellowship in addiction psychiatry at the Medical University of South Carolina.

Joe Cirrincione, PharmD, MBA, Managed Market Liaison for Otsuka Pharmaceutical Development & Commercialization, Inc., will be the moderator of this event.
