## VIRTUAL FORUM

## Measurement-Based Care In Psychiatry: Clinical & Administrative Perspectives

Wednesday, July 25, 2018 | 12pm ET | 9am PT

Measurement-based care (MBC) can be an important component in effectively treating an individual with behavioral health needs by systematically measuring symptoms and responses to treatment. During this Virtual Forum two experts in the field of behavioral health will explain the concepts of MBC, its role in pay-for-value, and how MBC may raise quality in psychiatry. James Greer, MD, Clinical Director of Child & Family Services at The Providence Center, will provide the clinician's perspective; Charlotte Ostman, BA, MSW, Chief Executive Officer at The Mental Health Association of Westchester Inc. will explain the importance of MBC from an organizational administrative perspective. Speakers are paid consultants for Otsuka Pharmaceutical Development & Commercialization, Inc.

### Charlotte Ostman, BA, MSW

Chief Executive Officer,  
The Mental Health Association, Westchester Inc

### James Greer, MD

Clinical Director, Child & Family Services,  
The Providence Center

**Nicole Meade, PhD**, Medical Science Liaison for Otsuka Pharmaceutical Development & Commercialization, Inc., will be the moderator of this event
